

# CASTING SOLUTIONS

↑ STRAIGHT AHEAD ↑

# ONE LOCATION

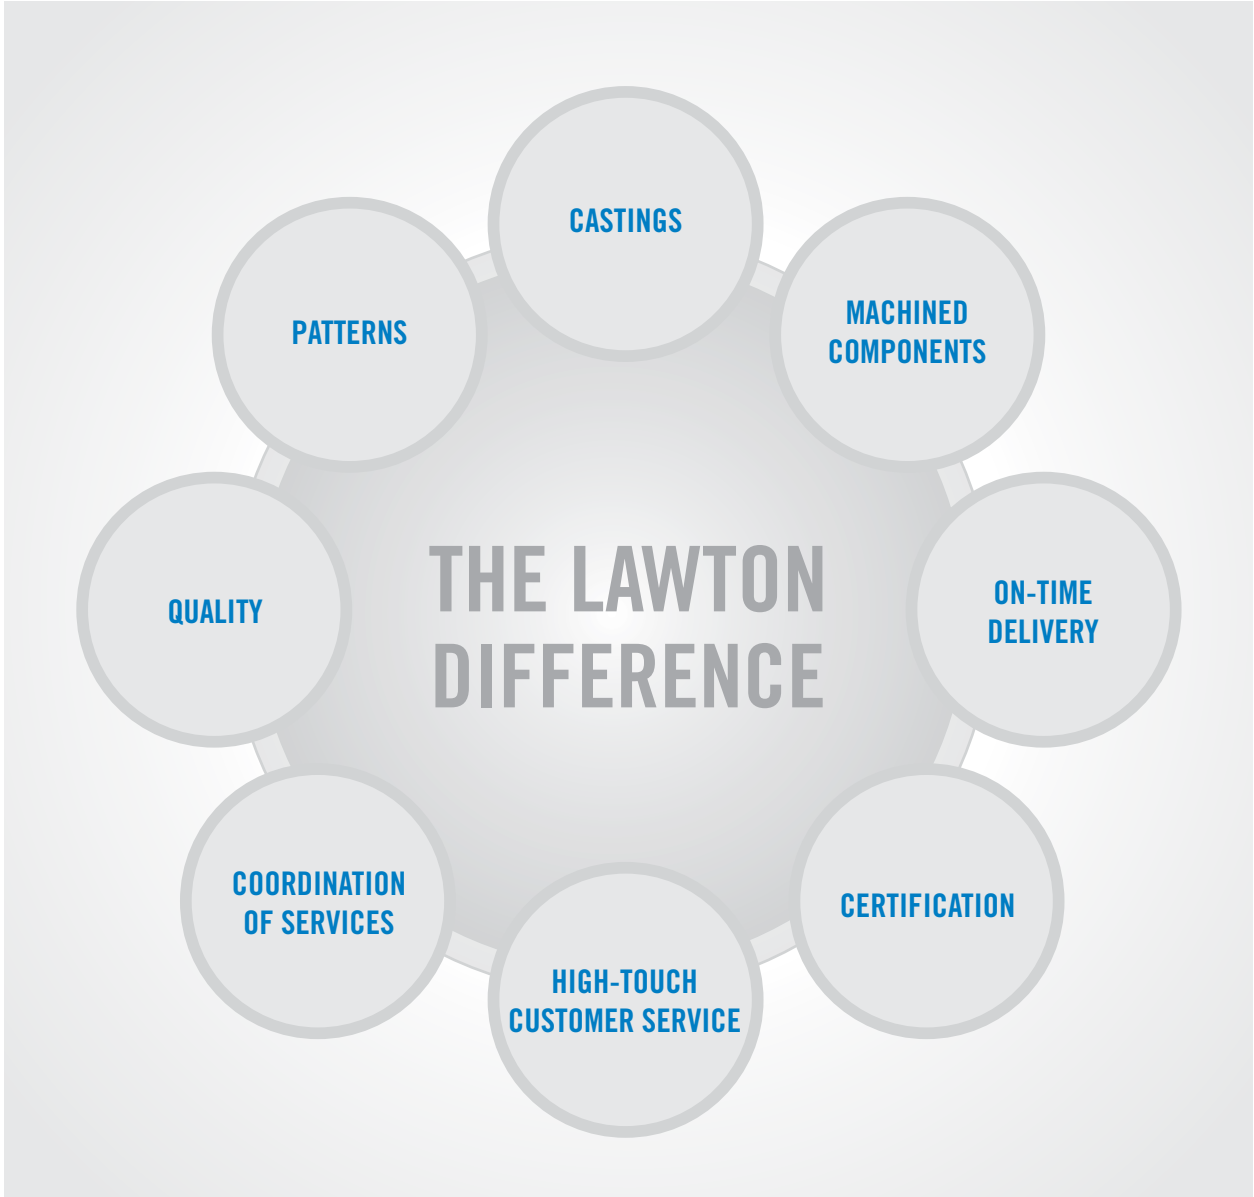

## A complete solution

Procuring castings is often a very difficult task. We've been making it easier on casting buyers for more than a century. We do that in many ways – most notably by leveraging our first-rate technical and operating capabilities to deliver quality castings on-time. We build on that with a culture and set of systems and processes that enable us to understand each client's specific needs and deliver proactive and high-touch customer service. Beyond that, we can provide seamless integration through our single manufacturing location – which produces patterns, castings, machining, painting, and assembly all at our DePere, Wisconsin, foundry – and via our coordinating services.

# COMPARE

## THE LAWTON DIFFERENCE

	Calco	Typical Level 1 Foundry	Typical Level 2 Foundry
Weekly updated order status reports	√		
On-site machining	√		
On-site sample machining	√		
ASME pressure vessel certification	√		
CSEI certification	√		
ISO 2001-2008	√	√	
On-time greater than 95% year after year	√	√	
On-staff metallurgist	√	√	
On-site lab facility	√	√	
Inventory programs	√	√	√
Non-destructive testing	√	√	√
Solidification modeling	√	√	√
On-staff casting engineer	√	√	√

The C. LAWTON CO. FOUNDED BY CHARLES A. LAWTON  
1887 - De Pere, Wisconsin

SPECIALISTS IN ENGINEERING - PATTERNMAKING -  
FOUNDRY AND MACHINING - OCCUPIED THESE  
PREMISES UNTIL SUMMER - 1969.

AUTHENTIC  
1880'S GAS-LIGHT STREET  
LAMP DELICATE REPAIRS.

THIS OFFICE ENTRANCE  
WAS USED FROM 1904  
UNTIL NEW OFFICE ADDED IN 1964.

FACTORY - FOUNDRY - WAS ESTABLISHED IN 1887  
IN THIS BUILDING ON FRONT STREET  
AND EXPANDED 'UP' TO HIGHWAY  
IN 1964.

# A LEADER SINCE 1879

From our beginnings as a manufacturer of bran dressing machines in 1879 to our current integrated business model – which includes engineering and manufacturing of patterns, castings, and machined components – Lawton has established itself as a leader in the foundry industry. Today we've matched our capabilities to industry sectors including agriculture, HVAC, oil and gas, off highway, paper, gas turbine, wind, mining and water.
